What Are Vital Signs Reports?

Measuring Progress

Vital Signs reports provide data to help track and assess the progress of local communities towards specific goals and objectives.

Informed Decision Making

The reports provide insight to help government, organizations, and residents make informed decisions about where to focus efforts and resources.

Our Goal

- Build an interactive website
- Satisfy the vision of our North Star customer (SSCF) and carry over customers (donors) by providing:
 - A design where the key takeaways of the report are impossible to miss. These are the findings of the report for each focus area.
 - A site that is easy and intuitive to navigate through all of the different data points (filtering focus areas and regional information)
 - A site where the content is clear to read and consistently laid out with the three following types of content: Infographics, Stories (video or written), and long-form written content.

Data Insights

Impact Data

Our website features data that shows the positive impact that SSCF had on our community through our initiatives and services.

Raw Data

Access the raw data behind our Vital Signs Reports from our website. It has been carefully curated to ensure that it is accurate and easy to use.

Data Analysis

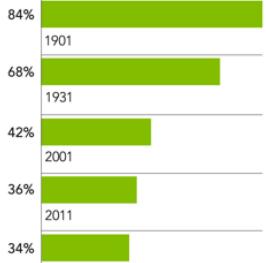

We have prepared and analyzed the data to make it meaningful, relevant and useful for the public, government and other organizations.

BEFORE & AFTER

Rural Canada
contributes about
30% of the
country's gross
domestic product.

Figure 3: Share of Saskatchewan's rural population between 1901 and 2016

Sources: Strengthening Rural Canada (1901, 1931, 2001), Saskatchewan Population Report prepared by the Government of Saskatchewan based on Statistics Canada's Census 2016 (2011, 2016)

Share of Saskatchewan's Rural Population (1901-2016)

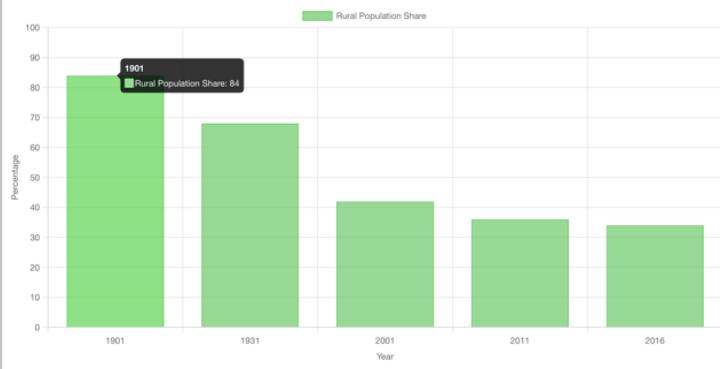

Table 1: Number of hospitalizations due entirely to alcohol in south Saskatchewan

Regional Health Authority (RHA), 2015-2016	Major towns in RHA	Number of hospitalizations entirely due to alcohol (as per 100,000 people)
Regina Qu'Appelle	Regina	339
Cypress	Swift Current, Shaunavon, Maple Creek	434
Five Hills	Gravelbourg, Moose Jaw, Assiniboia	222
Sun Country	Weyburn, Estevan, Oxbow	290
Sunrise	Melville, Yorkton, Esterhazy	292

REGINA'S CRIME SEVERITY INDEX

Regina's Crime Severity Index is **70% higher** than in the rest of Canada.

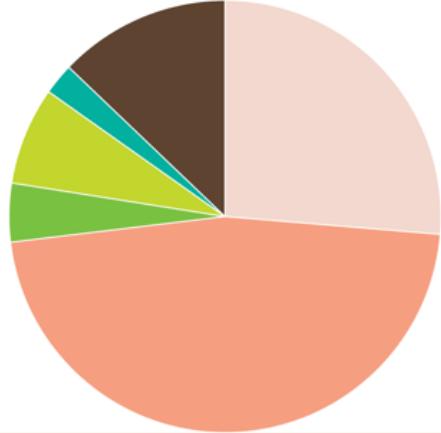

Hate crime
in Saskatchewan almost
doubled, from
9 instances in 2014
to **16 in 2016.**

RACISM TOWARDS IMMIGRANTS & INDIGENOUS PEOPLES

Racism and Hate Crime in Saskatchewan

- Hate crime Incidents 2014
- Hate crime Incidents 2016
- Saskatchewan share of Canada's hate crime incidents 2014
- Saskatchewan share of Canada's hate crime incidents 2016
- Police-reported general hate crime in Regina 2014
- Police-reported general hate crime in Regina 2016

Plugins/Tools Used

We used CodePen, AMCHARTS, and created some raw HTML code from scratch in certain areas.

Upsides

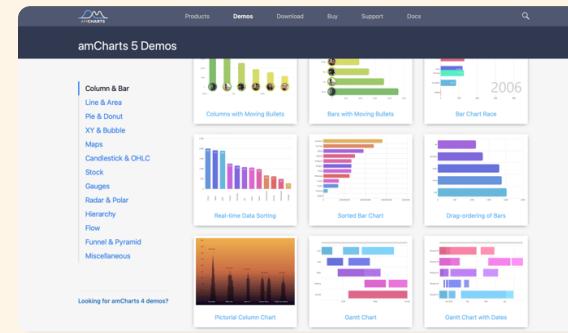

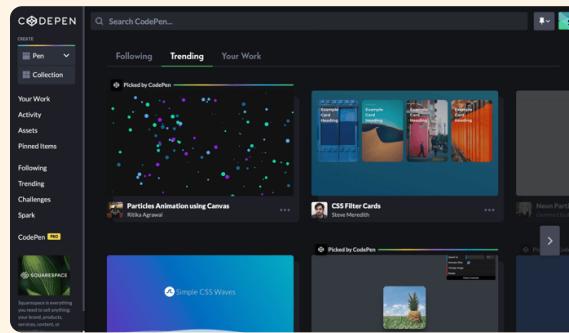

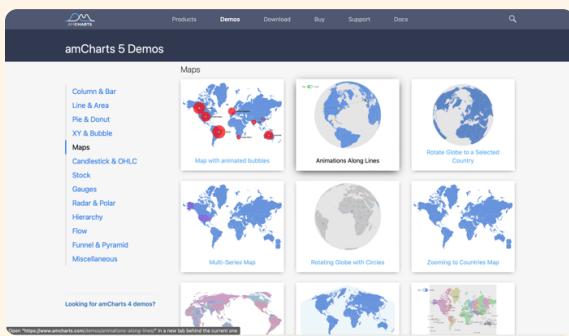

AMCHARTS

- Versatile chart types
- High customizability
- Interactive features
- Data import flexibility
- Free (with a watermark)

CodePen

- Open Source and great for inspiration
- Easy to use
- Live preview
- Wide range of templates and examples

Downsides

- Expensive
- Could be hard if you don't have any experience in coding
- WordPress Plugin is sometimes glitchy

Why Visit Our Website?

1 Stay Informed

Our website is the best source for up-to-date information on the critical work of the SSCF Foundation, and our future plans.

2 Learn More

By visiting our website, you can explore the data behind the reports, get detailed information about specific initiatives, and connect with us to get involved.

3 Make a Difference

Become a part of our community effort by volunteering, fundraising, or supporting our initiatives in other ways.

Thank You
